12:00-2:00	Robotic Surgery Robotic Hands-on Demonstration	Jennie Nickel, RN and Crestwood Robotic Team
2:00-3:00	Safety Counts – Maintaining Focus on Safe Surgical Practices	Grant Wilson, CST, M.Ed.
3:00-3:15	Program Evaluation and CE Distribution	

---

#### **Objectives:**

At the completion of the program, attendees will be able to:

1. Discuss recent advances in ophthalmic procedures.
2. Identify common surgical situations that lead to increased errors.
3. Evaluate scenarios for patient safety risk.
4. Describe the advantages of transoral robotic surgery.
5. Distinguish between various bariatric procedures and the risk versus benefit of each.
6. Recognize robotic surgery equipment and instrumentation.
7. Demonstrate robotic room setup and equipment testing.
